Experience

Freelance | Nov 2021 - Current

Frontend Developer

- Engineered scalable, responsive, multi-platform and SEO friendly websites for multiple clients using HTML5, CSS3 + BEM, JavaScript ES6+ and React best practises
- Communicated business requirements with stakeholders and delivered high quality solutions
- Writing extremely clean and reusable code by making effective use of dependency injection, code isolation, local reasoning, clean module boundaries, fast development cycles, tests, deterministic behavior and type safety

Internship   Aug 2022 - Current

Frontend Software Engineer Internship at FES

- Delivered 5 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Commercial Projects

Personal E-Portfolio

https://emrepala1.com/

My E-Portfolio highlights my strong skills for frontend development, along with other skills that also align with this position.

Candy Store Website

https://www.shopcandyroo.com.au/

- Developed and created `Candyrooau` their websites landing page using HTML5, CSS3 (+BEM) and JavaScript best practises
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Created a fully responsive site with multi-platform and hosting support

E-Portfolio

https://zhuanyoon.com/

- Designed, developed and hosted my client's e-portfolio using semantic HTML5 and CSS3 (+BEM) best practises
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Provided support for search engine optimisation for higher indexing through Google's search engine crawler
- Included responsive and multi-platform support to enable the portfolio to be viewed on any platform and device

Bare Care

https://barecare.com.au/

- Another website I had the pleasure to work on and create was 'BareCare', I implemented a mix off HTML5, CSS3, React.js (+BEM) and Javascript best practices in order to create the final product
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Created a fully responsive site with multi-platform and hosting support
